No. P. 8/B of 1941.

OFFICE OF THE SURGEON GENERAL
WITH THE GOVERNMENT OF BOMBAY:

Bombay, 18th April 1941.

From

MAJOR-GENERAL R. H. CANDY,
C.I.E., K.H.S., I.M.S.,
Surgeon General with the Government of Bombay;

To

THE SECRETARY TO GOVERNMENT,
General Department, Bombay.

*Subject.*—Annual Report on Mental Hospitals in the Province of Bombay for the year 1940.

Sir

I have the honour to submit the Annual Report on Mental Hospitals in the Bombay Province for the year 1940.

## BUILDINGS.

2. *Major Works.*—The construction of additional accommodation for 72 female patients at the N. M. Mental Hospital, Thana, as also that of additional quarters for 48 servants at the Central Mental Hospital, Yeravda, was completed during the year under report.

It is hoped that a new Mental Hospital will be built at Ahmedabad during the year 1941-1942 on modern lines and of increased capacity.

*Minor Works.*—Minor works, costing Rs. 12,288, were sanctioned at the various Mental Hospitals in the Province in 1940. Some of the important works carried out were :—

(1) Construction of quarters for the Woman S.M.S. Officer at the N. M. Mental Hospital, Thana;

(2) Improvement in the water supply at the Mental Hospitals, Ratnagiri and Dharwar; and

(3) Construction of bath-rooms and a room for the hot water installation for Hydrotherapy at the Mental Hospital, Thana.

The buildings of the Mental Hospitals have been kept in good condition, the necessary repairs having been carried out by the Public Works Department.

## Water Supply.

3. The water supply had been wholesome and sufficient throughout the year at the Mental Hospitals, Thana, Yeravda and Ahmedabad. At the Mental Hospital, Ratanagiri, the scarcity of water was more acutely felt during April and May 1940. Arrangement for additional water supply has been made by installing the Persian wheel to a well in the Jail compound and providing pipe line from there to the Mental Hospital. It is hoped that the arrangement will supplement the water supply to a fair extent. At the Mental Hospital, Dharwar, the pipe water supplied by the Municipality was insufficient and also unfit for drinking purposes. Water for drinking was therefore used from tube-wells. Two more bore wells have been constructed during the year and they will fairly meet the needs. The Hospital garden was partly supplied with water brought from outside by the hospital water cart.

## Accommodation.

4. In spite of the additional accommodation for 72 female patients at the N. M. Mental Hospital, Thana, the overcrowding continued at all the Mental Hospitals, as can be seen from the sub-joined table showing accommodation and population in the first week of January 1941 :—

| Mental Hospitals. | Accommodation in the first week of January 1941. | | | Population in the first week of January 1941. | | |
|---|---|---|---|---|---|---|
| | Male. | Female. | Total. | Male. | Female. | Total. |
| Thana ... | 240 | 150 | 390 | 316 | 161 | 477 |
| Ratnagiri ... | 134 | 42 | 176 | 161 | 46 | 207 |
| Yeravda ... | 784 | 443 | 1,227 | 864 | 525 | 1,389 |
| Dharwar ... | 138 | 61 | 199 | 174 | 65 | 239 |
| Ahmedabad ... | 206 | 61 | 267 | 265 | 99 | 364 |
| Total ... | 1,502 | 757 | 2,259 | 1,780 | 896 | 2,676 |

Thus 417 patients (278 Males and 139 Females) were in excess of the sanctioned accommodation.

5. The question of extending the male side of the Mental Hospital, Thana, by 96 beds is under the consideration of Government Even then, further accommodation will be necessary to meet the excess population.

## Staff.

6. During the year under report Government have sanctioned the following additional staff at the Central Mental Hospital, Yeravda, on a temporary basis:—

2 S.M.S. Officers.
1 Indian Overseer.
3 Indian Nurses.
2 Clerks.
34 Male Attendants.
13 Female Attendants.
4 Male Sweepers.
3 Female Sweepers.
2 Cooks.
3 Male Dhobis.
2 Barbers.

7. At the N. M. Mental Hospital, Thana, 6 additional sweepers (3 Males and 3 Females) have been sanctioned by Government in 1940.

8. The proposals for the following additional staff have also been submitted to Government and are under their consideration:—

Mental Hospital, Dharwar—

1 Indian Nurse.
3 Male Attendants.

Mental Hospital, Ratnagiri—

1 Indian Nurse.
1 Weaving Instructor.
1 Watchman.

## Hydrotherapy.

9. The works in connection with the Hot-water installation at the N. M. Mental Hospital, Thana, have been completed by the end of the year under report and it is expected that the Hydrotherapy will start functioning this year.

The proposals for the introduction of Hydrotherapy at the Mental Hospitals, Ahmedabad, Dharwar and Ratnagiri are under consideration of Government.

## Employment and Amusements.

10. The employment of suitable patients on such works as gardening, weaving, tailoring, making coir mats, carpentry, cotton tape manufacturing, bidi making etc., and helping in the domestic duties (such as cooking, sweeping, washing of clothes, corn grinding etc.) connected with Mental Hospitals continued as usual. The daily average number of patients employed under occupational therapy at the various Mental Hospitals throughout the year 1940 works out to about 36·6 per cent.

11. *Amusements.*—Indoor and outdoor games such as carrom, ping-pong, cards, volley ball, foot-ball, badminton, cricket etc., were played by patients in appropriate seasons as usual. Cinema shows, gramophone records, Jatras and Fairs were much appreciated by them. Books, Newspapers, Magazines and Periodicals were supplied to patients and on important festival days sweets and special dishes were served to them at their meals. An amount of Rs. 2,382-1-0 was expended on amusements and recreation to patients during the year under report.

## Visitors.

12. The official Visitors at all the Mental Hospitals were regular in their attendance and have expressed their satisfaction on the administration of all the Institutions.

## General.

13. *Provision for Parole.*—The system of sending patients on parole yields temporary relief in the congestion at the Mental Hospitals. In the year under report as many as 244 (165 male and 79 female) patients were discharged on parole as compared to 169 in the previous year.

14. *Special accommodation.*—The scheme for the provision of special accommodation and facilities to patients who are prepared to pay for such additional amenities, introduced at the Central Mental Hospital, Yeravda, has been sanctioned as a permanent measure by Government. It worked well in 1940.

15. *Acknowledgments.*—We express our thanks to all the persons and bodies who have extended their generosity towards providing additional comforts to the inmates of the various Mental Hospitals.

## Statement No. I.

16. *Population.*—The following table shows the admissions, population and the daily average strength of patients in the Mental Hospitals during the year 1940 and the previous year :—

| | 1939. | | | 1940. | | |
|---|---|---|---|---|---|---|
| | Male. | Female. | Total. | Male. | Female. | Total. |
| Total Admissions. | 744 | 283 | 1,027 | 778 | 306 | 1,084* |
| Total Population. | 2,321 | 1,069 | 3,390 | 2,473 | 1,163 | 3,636 |
| Daily Average Strength. | 1,661·9 | 824·4 | 2,486·3 | 1,740·1 | 876·7 | 2,616·8 |

*Of this number, 79 (56 Males and 23 Females) were readmitted.

The figures show a considerable rise in the total population and daily average strength at the Mental Hospitals.

17. *Discharges and Cures.*—During the year 1940, 385 patients were discharged as cured, 55 as improved, 37 as not improved and 272 as otherwise [which include the cases (244) discharged on parole]. The ratio of cured to the daily average strength was 14·7 as against 13·6 in 1939.

18. *Sickness and mortality.*—The daily average number of sick treated in Mental Hospitals in 1940 was 139·0 as against 126·4 in the previous year. The percentage of sickness to daily average strength was 5·3 as against 5·08 in 1939. The rise is due to Malaria at the Central Mental Hospital, Yeravda and infection by intestinal parasites including hook worms at Mental Hospitals, Thana and Ahmedabad. The health of the patients was generally good and there were no epidemic diseases in the Mental Hospitals during the year under report.

19. During the year 1940, the total deaths at the Mental Hospitals numbered 241 against 166 in 1939 and 195 in 1938. The ratio of deaths percentage to the daily average strength was 9·2 as against 6·7 in the previous year. The subjoined table gives the ratio of deaths percentage to the daily average strength at the various Mental Hospitals during 1940 and the previous year:—

| Mental Hospitals. | 1939. | | | 1940. | | |
|---|---|---|---|---|---|---|
| | Male. | Female. | Total. | Male. | Female. | Total. |
| Thana ... ... | 6·2 | 4·7 | 5·7 | 9·0 | 3·8 | 7·3 |
| Ratnagiri ... ... | 3·2 | 2·5 | 3·03 | 1·9 | 2·3 | 2·0 |
| Yeravda { Europeans ... | 2·04 | 1·7 | 1·9 | 7·5 | 6·8 | 7·1 |
| Yeravda { Indians ... | 9·6 | 5·07 | 7·9 | 11·4 | 11·9 | 11·6 |
| Dharwar ... ... | 5·8 | 3·4 | 5·2 | 5·7 | 8·2 | 6·3 |
| Ahmedabad ... ... | 8·6 | 11·9 | 9·5 | 10·1 | 13·1 | 10·9 |
| Total ... | 7·4 | 5·2 | 6·7 | 9·1 | 9·5 | 9·2 |

The chief causes of deaths among the inmates of the Mental Hospitals were Tuberculosis (37), Lobar Pneumonia (35), Status Epilepticus (20), Amœbic Dysentery (16), Senility (15), Senile Dementia (15), Anæmia (12), Myocarditis (11), Syncope (8), Nervous Diseases (7), Mania (6), etc.

The high death-rate at Yeravda requires an explanation. Among the deaths were a number of seriously ill and senile cases. Many cases admitted to the hospital were either in a very weak condition or were very old. Further there has been increase in the number of deaths from Status Epilepticus, Lobar Pneumonia and Tuberculosis.

STATEMENT No. II.

20. In the year 1940, 377 cases were observed at the various Mental Hospitals as compared to 384 in 1939. Of these 327 were certified and admitted and 40 released as uncertifiable as compared to 322 and 50 respectively in the previous year.

STATEMENT No. III.

21. The total number of Criminal insanes confined in Mental Hospitals was 168 (148 Males and 20 Females) as compared to 176 (159 Males and 17 Females) in 1939, with a daily average strength of 92·3 as compared to 95·8 for the previous year.

Of these 122 were admitted under Section 466 of the Criminal Procedure Code,

15 under Section 471 (*ibid*) and

31 under Section 30 (*l*) of the Prisoner's Act, 1900.

STATEMENT No. IV.

22. *Religion.*—Of the (1084) total number of patients admitted for treatment, 750 were Hindus, 189 Muslims, 38 Europeans and Anglo-Indians, 84 Indian Christians and 23 belonged to other castes.

STATEMENT No. V.

23. *Ages of insanes admitted.*—The ages of insanes admitted for treatment during the year under report were as shown below :—

| | |
|---|---|
| Below 20 years ... ... ... | 72 |
| Between 20 to 40 years ... ... | 761 |
| Do. 40 to 60 years ... ... | 231 |
| Upwards of 60 years ... ... | 20 |

STATEMENT No. VI.

24. *Forms of Mental Disorders.*—The principal forms of Mental Disorder treated during the year 1940 were :—

| | |
|---|---|
| (1) Mania ... ... ... ... | 694 |
| (2) Melancholia ... ... ... | 583 |
| (3) Schizophrenia including Dementia Præcox . | 500 |
| (4) Maniac Depressive Insanity ... ... | 453 |
| (5) Mental Deficiency ... ... ... | 290 |
| (6) Paronoia and Paronoid States ... ... | 208 |
| (7) Secondary Dementia ... ... | 187 |
| (8) Canabis Indica Psychosis ... ... | 185 |
| (9) Epilepsy and Epileptic Insanity ... | 152 |

## STATEMENT No. VII.

25. *Probable causes of Insanity among patients.*—The principal predisposing and exciting causes among patients were :—

| | |
|---|---|
| Mental Stress ... ... ... | 354 |
| Toxins ... ... ... ... | 172 |
| Bodily Infirmity ... ... ... | 138 |
| Old age ... ... ... ... | 128 |
| Epilepsy ... ... ... ... | 122 |
| Hereditary Predisposition ... ... | 81 |
| Infection ... ... ... ... | 75 |
| Previous attacks ... ... ... | 74 |

## STATEMENT No. VIII.

26. *Cash Accounts : Receipts.*—The receipts from paying patients during the year under review amounted to Rs. 2,16,626 as against Rs. 2,20,362 in 1939.

The value of stores received from the manufacturing departments less the cost of the raw materials was Rs. 26,705 and miscellaneous receipts amounted to Rs. 2,219. The total receipts under the three heads amounted to Rs. 2,45,550 as against Rs. 2,48,271 in the previous year.

27. *Expenditure.*—The gross expenditure for maintaining the Mental Hospitals amounted to Rs. 10,19,121 as against Rs. 9,56,544 in 1939. Deducting the receipts from the actual expenditure the net cost to Government was Rs. 5,28,021 as against Rs. 4,60,002 in the previous year. The increase in the cost is due mainly to the increase in the charges under (*i*) Diet to patients and (*ii*) On account of the works done by the Public Works Department.

28. The following table shows the cost per patient per annum of the daily average strength in the Mental Hospitals during the year under report and the previous year :—

| Mental Hospital. | *1939. | *1940. | Remarks. |
|---|---|---|---|
| | Rs. | Rs | |
| Thana ... | 237 | 256 | |
| Ratnagiri ... | 180 | 216 | |
| Yeravda ... | 341 | 317 | Admits European patients also. |
| Dharwar ... | 137 | 143 | |
| Ahmedabad ... | 160 | 159 | |

* The amounts spent on Original Works (Major and Minor) at the Mental Hospitals are excluded from the expenditure in calculating the cost per patient per annum.

29. A summarised report of the Central Mental Hospital, Yeravda, is printed as an appendix.

I have the honour to be,
Sir,
Your most obedient servant,

R. H. CANDY,
Major-General, I.M.S.,
Surgeon General with the Government of Bombay.

# ANNUAL REPORT OF THE CENTRAL MENTAL HOSPITAL, YERAVDA, FOR THE YEAR 1940.

## *Administration.*

Lieut.-Colonel E. C. A. Smith, I.M.S., was Superintendent throughout the year.

## *Accommodation.*

On the 1st January, 1940, there were 1,331 patients compared with 1,232 patients on the same date of the previous year.

The daily average number in residence was 1,360 as against 1,290 for the year 1939. The number in residence on 31st December, was 1,391.

The present authorized accommodation is 1,227 (784 males and 443 females).

## *Admissions.*

Admissions during the year were 417 males and 192 females, a total of 609 as against 563 for the previous year.

Of these admissions, 40 were voluntary boarders and 36 were readmissions.

The total number of patients treated during the year was 1,940.

Of the patients discharged from the Hospital during the year, 198 patients were considered as "Recovered", 20 as "Improved", 19 as "Not Improved" and 162 as "Otherwise". The last group includes 142 patients discharged on parole and one patient transferred to the Mental Hospital, Madras.

## *Deaths.*

There were 150 deaths during the year; the death-rate worked out as a percentage of the average number in daily residence was 11·03. Among the deaths were a number of seriously ill and senile cases. Though one cannot rely on the ages given at the time of admission, 22 were over 60 and of this number 10 were 70 years of age and over. One case died of hæmorrhagic Small-pox in the Infectious Diseases Hospital. The disease was contracted in this Hospital and we were singularly fortunate in the fact that we recognized the case very early and with appropriate prophylactic measures prevented the occurrence of any further cases. 14 deaths occurred in cases that had been in Hospital for less than 6 weeks and of this number 4 were in Hospital for 10 days and 1 less than 3 days. The additional reason for this high death rate was the increase in the number of deaths from Status Epilepticus, Lobar Pneumonia and Tuberculosis.

## *Health of Patients.*

The general health has been good and there have been no epidemics. During the past year we have had more cases of Malaria than usual. We have been able to get the Military Staff

in charge of Anti-Malarial measures in East Kirkee to take an interest in us as such interests are complementary and desirable. On their advice we have recently canalised the stream, arising in the Jail area, which passes through the new extension area of the institution and we are hoping that this will materially reduce the incidence.

*Special Facilities.*

The demand for special facilities still continues and to meet it adequately, separate rooms outside the main hospital buildings will be required.

*Occupational Therapy.*

The daily average number of patients employed under "Occupational Therapy" during 1940 was 728.

*Recreation.*

The facilities in regard to recreation and amusements to patients continued as usual. During the year a sum of Rs. 1,222-9-0 was spent for this purpose.

*Finance.*

The total receipts during 1940 were Rs. 6,30,667 as against Rs. 6,56,662 for 1939. The fall in receipts from paying patients is due to the fact that the scale of fees was reduced by Government Resolution, General Department, No. 5183, dated 22nd October 1936, but we have not felt the true effects in the accounts until the past two years.

*Acknowledgments.*

We express our thanks to Mr. K. M. Mody, Director, Western India Theatres Limited, for continuing the facilities that he has afforded to us for years, namely, allowing about 12 patients at a time to attend performances in the West End and Empire Cinemas thrice a week free of charge. Mr. P. C. Guzdar of Bombay provided special meals, etc., to the Parsi inmates during the celebration of the Parsi New Year.

Mr. A. C. Patel of Poona generously provided sweets and small gifts for the X'mas treat to a few of the more appreciative patients of the institution.

The hospital has lost a great friend in the death of the late Mr. J. N. Vatchaghandy of Bombay. Some years ago, amongst other things, he was instrumental in raising funds which have since provided us with a Parsi Nurse.

(Signed) E. C. A. SMITH,
Lt.-Col., I.M.S.,
Superintendent,
Central Mental Hospital, Yeravda.
